Dear Valued Customer,

We would like to offer you clarification on how the Pulsafeeder products comply with the Buy American requirement in Section 1605 of the American Recovery and Reinvestment Act of 2009. This act requires that none of the funds made available by the act may be used for a project for construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and **manufactured goods** used in the project are "produced in the United States". Reference information can be obtained from the EPA, with specific detail available from the link at the bottom of this page.

Pulsafeeder's SPO products are manufactured in Punta Gorda, Florida, with operations that include component inspection, machining, assembly, programming, testing and packaging. The components used in these products have been sourced primarily from the United States of America, Canada, South Korea, Taiwan and China. Each product varies in its component origin and required manufacturing operations, so we have listed our compliant product families below. The accessory products offered by Pulsafeeder vary in compliance and have not been categorized below; please call our Technical Services department for individual accessory component compliance.

### **'Buy American' Compliant Products**

#### **SPO**

- PULSAtron Solenoid Metering Pumps and PULSAtron Series M Metering Pumps
- Chem-Tech and Mec-O-Matic Diaphragm and Peristaltic Pumps
- Digital Glycol Feeders
- Corrosion Coupon Racks
- PES Pre-Engineered Systems
- MicroVision and MicroTrac Panel Mounted Controllers
- PULSAtrol Series Controllers
- DCS, ACT & Analog Mini-Series timers and level controllers

We hope that this information is useful to you, and that your business has the opportunity to support American Recovery and Reinvestment.
