

## Topic – MicroVision EX Software by Model Number Guide

Your *MicroVision EX* has specific software based on your model number. To find the correct software for your controller follow these steps:

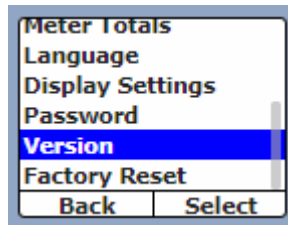

From the Main Menu

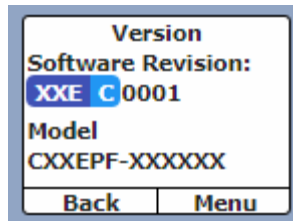

Select Configure

Scroll down - select Version

Your software version

Below is a guide that matches your model to its software version. If you don't have a 'C' in your version, use the Legacy software.

To obtain the latest software for your controller, contact Technical Service (941)-575-3800.
